Key features

See the product at the online store

The whiteboard/chalkboard features a composite panel with high rigidity as its base. Depending on the version, you can write on the surface using dry-erase markers, chalk markers, or traditional chalk. The panel is fully magnetic, accommodating all types of magnets, including classic, souvenir, and neodymium magnets. Its minimalist edges provide a sleek and elegant look, making it easy to blend into any environment.

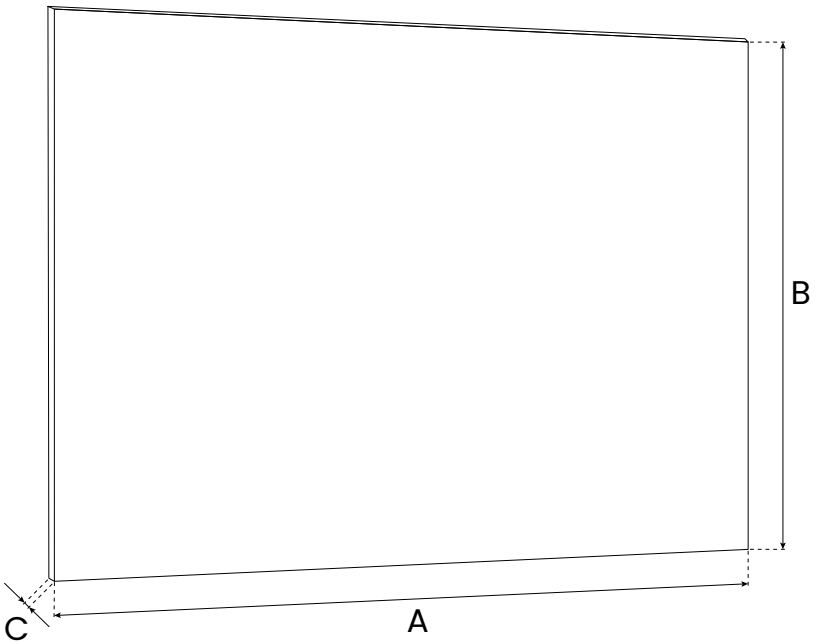

This panel is versatile and can be used in offices, homes, schools, restaurants, or bars. It's ideal for jotting down notes or attaching photos and notes with important information.
